FITZ JOHN PORTER.

If ever there was a good and meritorious officer of the army causelessly persecuted, that man is the one whose name heads this article. Dismissed from the service by a partisan so-called Court Martial, he has been hounded for years, after having been for several years refused trial, and when he was finally tried nothing was found against him. His great sin was that he was a Democrat and would not bow to the Moloch of Radicalism. And even now, as will be seen by the annexed just comments of the *Record-Union*, the same Satanic spirit follows him through Senator Logan, who is a fit representative of those proscriptionists who would carry their ostracism into all the walks of life, public as well as private: "Congress has passed a bill empowering the President to reinstate Fitz John Porter in the army, with the rank of Colonel, on the retired list; the conditions being that he shall not be entitled to any back pay or other emoluments for the time during which he has been out of the service. The bill was passed by a strict party vote, the Republicans all voting against it, save a few in the Senate who declined to vote, and the Democrats all voting for it. Senator Logan made a very bitter and abusive speech on the occasion, comparing Porter unfavorably with Jefferson Davis, and intimating that if had had his deserts he would have been he shot by a drum-head court martial. The vituperation of Senator Logan demands explanation; for assuredly there has not been any evidence adduced in the later and more careful investigation of Porter's case, to warrant such expressions. On the contrary, it has been proved as conclusively as anything human can be, that Porter was greatly wronged by Pope; that he was not accorded fair play on his first trial; that his actions and his positions were flagrantly misrepresented; and that in fact he had been condemned on testimony which was nearly all worse than worthless. This, moreover, is the opinion of some of the best military judges in the land, and of these more than one has intimated that if strict justice were done another officer than Porter ought to have been court-martialed in this connection. Logan's partisanship appears to have mastered his sense of justice, in fact, and it is to be regretted, since party never seems so mean as when it impels men to defend flagrant injustice rather than admit that a political opponent is in the right."

THE GREAT MONOPOLY.

The press of the State, notably the Colusa *Sun*, are warning the farmers of this coast of the impending danger that is now staring them in the face—the Southern Pacific Railroad monopoly—which it is said contemplates controlling our wheat market by monopolizing the carriage of the crop overland to the gulf of Mexico, and thence in their own vessels to the European markets where all our surplus wheat is disposed of. It is expected that as early as August of next year the line from San Francisco to the Gulf will be completed. The theory advanced is, that the company will at first carry the grain at such low rates that sailing vessels will not be able to compete, and they will be driven to other parts of the world to seek freight; then there will be a clear field left to the railroad to gobble up the entire crop at their own figures; the siren song of low prices now sung by the R. R. Co. to lull their unsuspecting victims will be hushed, up will go the freight rates, (which of course the producer will have to pay in the reduced price for his grain,) and the farmers of the coast will be powerless to help themselves and must perforce accept just what they can get from the greedy monopoly. This is a sorry picture for the future of this coast, if it shall turn out to be a reality. The fact that the nabobs who control these overland lines have already been enriched by the people of this coast will be no check on their rapacity so long as there are other millions in sight. But perhaps it is not too late to avert the threatened calamity. We have a railroad Commission from whom relief ought to come, but we do not look for it. The pressure which such wealthy corporations as they have to cope with can bring to bear upon them we fear will be greater than they can withstand. We will hope, however, that they will have sufficient back-bone to stand by and protect the rights of the producing classes of this coast, on whose prosperity depends that of every other class of our people.

COMBINATION safe locks may be a very good thing, but sometimes they are a little puzzling. Take the instance of a vault belonging to the Wayne county bank, at Wooster, O. The officials forgot the combination and were for some days unable to get at $10,000 to securely locked up. Presently a stranger came to the town and volunteered his services to remove the difficulty. What must have been the surprise of the officers of the bank when the new-comer mastered the lock in a few minutes. Now it would, in the first place, be of interest to know the profession of said stranger, and in the second to discover whether all combination locks cannot be as readily opened if the right sort of fellow comes along.

We can give an unqualified amen to the following, from the San Francisco *Merchant*:

There is a growing disapprobation in the minds of Americans against these foolhardy Arctic expeditions. They call forth to view splendid exhibitions of individual courage and dogged will, but the courage and will are inherent, and might better be employed in other ways. Are the results commensurable with the outlay and loss of life? What is it all when all is done? are reasonable questions often asked and never satifactorily answered. Picked men go on these expeditions; men that can ill be spared from the world. They are daring men and reckless men, and like the danger and excitement in the hope of fame. Let us recover the Jeanette and her crew, and cry peace to such foolishness forever.

NOTWITHSTANDING the divisions in the Democratic party in Tennessee on State questions, it remains intact on all National issues, and they will undoubtedly elect a Democratic Senator. If they do, and if Grover of Oregon declines to give up the ghost, the Stalwarts will not have a majority in the Senate in the next Congress, and will not be able to cut the political capers to which they have been so hopefully looking forward.

SINCE the election of Garfield, several proprietors of iron and steel works at Pittsburgh have reduced the wages of their employes. This is not in exact accordance with the sweet talk to workingmen before the election.

A serious riot occurred at Philadelphia Thursday night between students of the University of Pennsylvania and medical students

FINANCIAL RECUPERATION.

The country is now in a better and more prosperous financial condition than for many years. One reason for this is the bountiful crops with which it has been favored, another is the healthy condition of its finances and the resumption of specie payment. The balance of trade with foreign nations being largely in our favor has brought millions upon millions of gold from Europe, which has made money more than usually plentiful. The volume of money in the country Nov. 1st was about as follows: Greenbacks, $346,681,016; bank notes, $342,063,451,; gold coin, $453,882,692; silver coin, $158, 320,911. Total, $1,300,948,070. In 1875 the total coin in the country was but $140, 000,000, of which $5,000,000 was silver, and the rest gold. The increase of coin volume in five years has been 330 per cent, or $472, 203,603. Of the present money resources of the country, a little less than 53 per cent is paper, and a little more than 47 per cent is gold and silver. The gold production of the country from all its mines for the year ending June 30, 1880, is placed at $36,000,000, and its silver at $37,700,000. Total, $73,-700,000. The gold imports are still much in excess of gold exports, and the increase in gold and silver from mines and imports during the fiscal year upon which we have entered has been estimated at $100,000,000. The Director of the Mint reports a total coinage at the San Francisco Mint for the last fiscal year, in gold and silver, of $36,053,-000. With such an outlook the prospect for the coming year is indeed bright. The late abundant rains will give an increased impetus to every branch of business and every industry in California, so that the outlook for the future is as good as could be asked for.

Rothschild's Maxims.

According to George Francis Train, Baron Rothschild had the following maxims framed on his bank walls:

Attend carefully to the details of your business.
Be prompt in all things.
Consider well, and then decide positively.
Dare to do right. Fear to do wrong.
Endure trials patiently.
Fight life's battle bravely, manfully.
Go not in the society of the vicious.
Hold integrity sacred.
Injure not another's reputation or business.
Join hands only with the virtuous.
Keep your mind from evil thoughts.
Lie not for any consideration.
Make few acquaintances.
Never try to appear what you are not.
Observe good manners.
Pay your debts promptly.
Question not the veracity of a friend.
Respect the counsel of your parents.
Sacrifice money rather than principle.
Touch not, taste not, handle not intoxicating drinks.
Use your leisure time for improvement.
Venture not upon the threshold of wrong.
Watch carefully over your passions.
Extend to every one a kindly salution.
Yield not to discouragement.
Zealously labor for the right,
And success is certain.

"Boycotting."

This is practiced in Ireland, and is described by the San Francisco *Daily Exchange* to be a proceeding about as follows: When a man, landlord, agent, or anyone else, is denounced by the Land League, no intercourse whatever is held with the person or persons so denounced. "No one will work for you, no one will sell to you, no one will speak to you. You may starve to death in the midst of plenty. If the landlord evicts a tenant no one will take the land from which the tenant has been evicted, and the landlord himself is at once 'Boycotted.' No law can reach the 'Boycotted.' Every man has a right to sell or not to sell, to buy or leave it alone. If the farmers and shopkeepers of Ireland follow the advice of the League, and neither sell nor buy with those 'Boycotted,' the land system in Ireland is doomed."

This Boycotting is making a social and business leper of a man, and will eventually drive him away.

Right Kind of Talk.

The following extract from an address delivered by Senator Brown before the Georgia Legislature is to the point, and has the right kind of a ring to it: "I have the educational question very much at heart. Disguise it as you may the New England States with their schools and universities, have dictated laws to this continent. They have sent New England ideas all over the West, and they dominate there. Look at Prussia, that little Empire over which Napoleon rushed and nearly obliterated. Hardly a generation passed before it had in turn humbled France and taken the power from its Empire. The bright-eyed boys in your mountain wire-grass may represent you nobly before the world if you educate them. We must also educate the colored race, and they ought to be educated for the benefit of the Union, and by the friends of the Union. I would devote the proceeds of the public lands to this purpose on the basis of illiteracy. The colored people are citizens, and we must do them justice."

The Lowest Type of Human.

Miss Bird, an English lady, describes in a book on Japan, and especially on the Ainos, how she was ferried across a river by one Aino, "completely covered by hair, which on his shoulders was waivy like that of a retriever, and rendered clothing quite needless, either for covering or warmth;" and how, in another place, she met with a second old man, whom she emphatically describes as "the missing link." His face was vacant and apathetic, his arms were unnaturally long and thin, he squatted with his knees tucked into his armpits, and his whole body was covered with black hair "more than an inch long," and slightly curly on the shoulders. He had, however, a bare patch on each side, probably marking the parts on which he rested when asleep—a peculiarity found in the gorilla, who has a bare spot on his back, where he leans against trees.

Kissed the Wrong Girl.

On the arrival of the train from Folsom on Wednesday morning, an amusing scene occurred at the depot. A young man of this city, heretofore prominent in military circles, was an anxious waiter previous to the incoming of the cars—in expectancy of meeting a young lady, toward whom his feelings are strongly inclined. He thought he saw her get off the steps when the cars stopped. In hot haste he rushed up, embraced her and gave her a salute on the lips, the smack of which resounded through the depot and made the rafters ring. Then there was a scream, the young man suddenly discovered that he had kissed the wrong girl, and hastened to repair damages by hunting up his expectant and giving her a series of busses which prevented her from remonstrating with him for his unintentional act.—*Bee.*

Orland as a Railroad Terminus.

The Tehama *Tocsin* has been informed that it is now definitely settled that the town of Orland has been chosen as a railroad terminus; that the coming week surveyors will locate a site for a depot and make other necessary arrangements to complete the railroad line from Willows to Orland; that the merchants and others burnt out are going to erect brick stores and begin immediately to build up the burnt district.

THE most costly building in the country, when completed, will be the Mormon Temple at Salt Lake City, the cost of which is estimated at $27,000,000. The next in cost is the Capitol at Washington, then the Capitol at Albany, still incomplete, and then the New York City Court House, the latter especially being called a fraud.

Collyer on the Newspaper.

At the Church of the Messiah, last evening, the Rev. Robert Collyer preached upon "The Newspaper." His text was from Daniel ii, 33, 34. "This image's head was of fine gold, his breast and arms of silver, his belly and his thighs of brass, his feet part of iron and part of clay." "Ministers," he thought, "should all be proud of the press. There are very few good newspapers but deal with religious themes in a broad and liberal spirit; they show no quarter to religious bigotry on any side. The very substance out of which newspaper men are made holds in it the leaven of free thought. The newspaper is more popular and more widely read in this country than the Bible. It comes to us pregnant with the thought of the living world surrounding us. There is a divine, human, and infernal element in newspapers like the image the King saw in his dream. There are many vile papers full of pictures that poison the youthful mind with lascivious suggestions; these are the clay of the image. But the best journals are always growing better. The majority of our papers are free and honest. They stand as heralds that encourage us to aspire to a nobler manhood. A great and good newspaper is as sacred in its own way as the word of God; it is as true a ministrant to the soul's life as bread to the body and as indespensable. That minister prays and preaches best who keeps up the steadiest intimacy with the newspaper. The Bible is the divine book; the newspaper is divine in its own way also. The editor's sanctum generally is, and should be, guarded from all bigoted and sectarian influences. The newspaper is growing purer, and the day will come, if the people grow large enough and fine enough to insist upon such a thing, when the whole image will be of shining gold.—*N. Y. Sun, Dec. 7.*

An Amateur's Bad Luck.

A certain amateur sportsman of this city, not altogether disconnected with the dentistry profession, threw down his tools a week ago yesterday, and, picking up his gun, started off in the direction of the tules for a hunt. He soon found that his usual good luck had deserted him, and just as the twilight was blending with the deeper shades of night found himself in the neighborhood of Wm. Rawson's house, four miles from home, footsore, weary, and minus the shadow of game of any description. This latter fact weighed heavily upon the sensibilities of our molar sharp, and in desperation he determined to knock over the first live creature he encountered, if nothing more than a member of the altogether profitless jack rabbit family. Espying what he supposed to be one of the latter toothsome animals, he blazed away and had the satisfaction of seeing the victim drop dead in its tracks. Approaching, he soon discovered his mistake, however, as the aroma arising from the prostrate game painfully announced the fact that he had expended his ammunition on none other than a specimen of the genus *mephitis Americana*. Hardly had he succeeded in ridding himself of a *part* of the aroma with which a close contact with his game had enveloped his person, than he discovered a couple of ducks gracefully swimming in an adjacent pond. Hastily reloading his gun and approaching to close range, he gave the coveted fowls the contents of both barrels. Securing the birds he marched proudly up to Mr. Rawson's house, and upon ringing the bell he was met at the door by the good lady of the house with "Good heavens, Doctor, if you haven't gone and killed my favorite drake and one of the choice ducks I had just purchased for the purpose of stocking the place!"

Curtain.

Mistook the Place.

Charley Davis and Donald Frazer were sitting in the office of Frazer & Co.'s meat market a day or two ago, with their feet elevated on the railing in true lawyer style, when a man came hurriedly in, and, throwing down a bundle of decidedly legal looking papers, announced that he wanted "dot leedle peesness attended to omediately."

"What is it, hogs, cattle or sheep?" asked the 'Squire, brightening up at the prospect of a trade in the butchering line.

"Nein hocks, nein gattle, nein sheep," said the man.

"Something in the coal oil line, maybe?" quietly asked Mr. Davis.

"Nein! nein! Nodings in der goal oil line, neider! Vat I vants is, dot mine frau, Pauline, she leafs mine ped, und mine poard, und goes away mit anoder feller, und I don't can pay any more of dose bills she gondracts at der shtore, and I vants some leedle—vat you call it? davorce,—righd away off, all der vile."

When informed that he had mistaken a meat market for a lawyer's office, his astonishment and amusement knew no bounds, and with a loud guffaw he followed the direction to the nearest attorney's office, muttering as he went that it was no time for him to be "foolin' around mit sheep und gattle und goal oil, und such tings like dose."

Yolo County Sportsmen's Club.

A number of our amateur sportsmen met at the Town Hall last evening for the purpose of organizing a Sportsmen's Club for Yolo county. There were present Messrs. Alex. Eibes, D. H. Wyckoff, W. L. Scott, Jesse Walters, Geo. W. Bentley, H. U. Ogburn and Wm. Voorhees. Mr. Bentley was called to the Chair, and H. U. Ogburn acted as Secretary. After the object of the meeting had been stated by the Chairman, a Committee, consisting of H. U. Ogburn, D. H. Wyckoff and W. L. Scott, was appointed to draft a set of by-laws for the government of the Club, the same to be submitted for adoption at the next regular meeting. On motion, the Club then adjourned to meet at the Town Hall next Monday evening, Dec. 20th, at seven o'clock P.M.

An invitation is extended to all gentlemen desiring to become members of the Club to be present at the time and place above mentioned.

Tow-Path.

The "Tow-path" club left Garfield in a tow-ering passion, remarking "tow be, or not tow be." He just flaxed them by a look. Every fellow as he got outside said "low" bridge. The raging canal was well represented by that crew. Talk about taking a reef in the stovepipe; or throwing the Captain's wife overboard as an anchor in the storm, was nothing compared with the trip of the "Tow-path" club. The spokesman of the *coterie* was the fellow that got Garfield's warm (?) reception first; but it was startling in effect. Garfield did not intend to be the Mentor of any tow-path institution. What a magnificent *chromo* that scene would have made. You may rest assured if Hancock could be voted for to-morrow, every one of the Tow-Path Club would give him a plumper.—*Spirit of the Times.*

JOHN O'CONNER, the hotel keeper of Orland, informed the Tehama *Tocsin* that Mr. Michel, a merchant of Orland, while in San Francisco last week, had a talk with Charley Crocker, who informed him that the road which runs up the valley branching off at Woodland, would be pushed through in the early Spring, or as soon as they could spare the men off the Southern Pacific. That this or next week, surveyors would go up to select the site for a depot and other buildings.

Foothills for Rain.

This paper has often called attention to the many advantages offered in the foot-hill region of California to small farmers. They have a healthy climate, easy access to water for irrigation in summer and autumn, an abundant supply of timber, a soil that averages well with the hilly lands of Pennsylvania, Virginia and Tennessee, plenty of rock for building, lime, and the construction of macadamized roads, and during the winter months they get twice as much rain supply as the Sacramento and San Joaquin valleys. We now call special attention to this last named fact. The rain gauges show that all along the foothills, from Shasta to Sonora, the rainfall so far this winter averages over seven inches, while it falls below three inches on the average in the valleys, from Colusa to San Bernardino. Wheat and barley sowed in the foothills, where the soil is not exhausted by bad farming, will have a better chance to produce good crops, when the average rainfall, say at San Jose, Stockton, Modesto and Visalia, is not over ten inches during the whole season, than similar cereals sown in the best valley lands. There are 12,000,000 acres of this foothill land from Yreka to Bakersfield, and more than one-half of it is well adapted to all the cereals and all the fruits, including grapes and oranges. It is worth more now for agriculture and horticulture than for mining purposes, and ought to be brought under the pre-emption and homestead laws, like other parts of the public domain.—*S. F. Chronicle.*

CHANGE OF CLIMATE.

A short time ago, but before the rains set in, Professor Legate made an examination of the Sierras to satisfy himself and also to enlighten the public as to the climatic changes that have been taking place in this State during the last few years. The result of his researches was published in the Virginia City (Nevada,) *Enterprise*, as follows:

Prof. Legate has just returned from a trip into the Sierras of eight days' duration. He had with him two assistants and his own vehicle for the transportation of his instruments, and camped out most of the time. The object of the Professor's trip was the study of recent interesting meteorological changes in the elevated regions of the Sierras. He was led to believe that during the present season the warm belt had shifted south. Beginning at a point just north of Lake Tahoe, the snow has not melted away as in former years. There are now banks of snow from 50 to 100 ft. in depth at points where heretofore at this season no snow has lain. Nearly the whole of the snow will remain where it now lies until the snows of winter again set in. Up toward the head waters of the North Fork of the Yuba river, where no snow is usually seen at this season, it has but little more than begun to disappear. In that place are to be seen huge banks of snow, under which flows the waters of the stream, forming arches or natural bridges 300 ft. in hight, and from 200 to 300 ft. in width. Prof. Legate has fully satisfied himself that this wonderful change, which is leaving all the northern parts of the Sierras buried in snow, summer and winter, is caused by the denudation of timber which the mountains have suffered through a belt beginning at Lake Tahoe and extending some 20 miles southward. Through the great gap thus left by the sweeping away of the forests now flows the warm current of air which formerly moved—with something of the circling motion of water in an eddy—far along the mountains to the northward.

May it not be that the change of the "warm belt" to the southward leaves Central California in a position to receive the benefit of the greater condensation in the atmosphere caused by the increased amount of snow in the mountains near us, and that that is the cause of the unusually heavy and continued rains we are now having? At any rate this idea is worthy of serious thought, as the change may be a permanent one.

CAN IT BE SO?

It is more than intimated that the politics of present incumbents is to determine whether an election shall be ordered for county officers next Fall in this State, from the fact that one of the State officers at Sacramento is sending out letters of inquiry to every county in the State to ascertain the politics of the county officers, it looks very much like it. And it is intimated that if a majority of the present officials are Republicans, they will be allowed to continue in office notwithstanding the fact that they were only elected for one year, and have no right to hold beyond that time; or rather not longer than until their successors can be elected and qualified by due course of law; while, on the other hand, if it shall be found that a majority of the county officials are Democrats, then the Republican Legislature will not call an election. According to this plan the Republican party *is the law*, they are a law unto themselves, and not the mere administrators of the written law. But perhaps the cause of all this is, that the County Government law which was passed by the last Legislature was declared unconstitutional. At least this may be made the excuse for their course. Still the foregoing seems to outline the plan of the Republicans, but it remains to be seen whether it can be made to work. We opine, however, that the next Legislature will upset that kettle of fish and pass a law that will stand the test of the heretofore misunderstood new constitution, and therein order an election for county officers next fall.

THE popular vote is not yet settled between Garfield and Hancock. The Chicago *Tribune* gives Garfield a plurality of 3,401, thus: Garfield, 4,439,415; Hancock, 4,436,014; Weaver, 305,729; Dow, 9,644; scattering, 1,793. Total, 9,192,595. The Chicago *Times* using the figures returned from thirty-four States, and estimating the rest, makes out a majority for Hancock of about 800. It is estimated by the *Tribune* that the vote prohibited by force and intimidation in the "solid South" aggregates between 220,000 and 240,000. Now take into account the thousands in the North who were coerced by their employers and the other thousands whose votes were purchased, and we have a rather mixed state of things in this country of the free elective franchise.

THE *Mail* misrepresents the truth when it says, referring to the change of form of the Weekly DEMOCRAT, that it now comes out "for the first time in home-made style, i. e., as an eight-column, four-page paper." The fact is, the DEMOCRAT was printed in home-made style" long before the *Mail* had an existence and for years afterward. The change is made now principally because the other style was too expensive. The *Mail* has misrepresented us in this matter all the way through, either purposely or ignorantly, and it matters not which.

REV. JAMES H. NUTTING, in a thanksgiving sermon at Fall River, Massachusetts, made the startling disclosure that the ratio of divorces to marriages in Massachusetts in 1868, was 1 to 15; Vermont 1 to 13; Rhode Island 1 to 9; and Connecticut 1 to 8. Lake county, Ohio, the ratio was one divorce to every six marriages. The New York *Herald* pronounces this statistical information most astounding.

THERE was a great noise made last winter because the Democratic Congress would not appropriate more liberally for the support of the army, and now the Grass Valley *Union* remarks: The Secretary of War reports that he has not expended the appropriation that was made by several million dollars. Why does not somebody rise up now and denounce Congress for its extravagance?

SENATOR LAMAR went, into the late canvass," says the Natchez *Democrat*, "in opposition to the wishes of his advisers, and delivered several speeches in a sitting position, being unable to stand, through weakness. Since the election he is worse, and it is thought to be not improbable that he may be taken down at any moment with his last illness."

THE Solana *Republican* has been sold to W. N. Bowen, who is now sole editor and proprietor, and it will hereafter be conducted as a Republican paper. The first number under the new manager shows ability, and we extend to the *Republican* our best wishes for special success.

Retirement of Small Notes.

WASHINGTON, December 15th.—The bill introduced to-day by Senator Hill of Colorado, for the retirement of small legal tender notes, provides that in place of legal tender notes of denominations less than $5 which may be held in the treasury or hereafter presented for redemption, the Secretary of the Treasury shall each month substitute a note of the same character but of higher denominations, to the amount (as nearly as practicable) of the standard silver dollars coined during that month, and that no more legal tender notes of a lower denomination than $5 shall hereafter be printed. A copy of this bill was introduced in the House to day by representative Belford.

Boston Election.

BOSTON, Dec. 14.—Full returns for Mayor give Prince (Dem.), 21,286; Stebens (Rep.), 20,754. The Democrats elect seven and the Republicans five Aldermen. The Council stands 45 Republicans and 26 Democrats.

The South American War.

PANAMA, Dec. 6.—The long-expected Chilean attack on Lima is at last an actuality. On November 19th eighteen war vessels appeared off Pisco Angama, and two of the vessels steamed into the harbor, and sent officers ashore, who demanded the surrender of the place, and were refused. Fire was at once opened from the ships, and was returned by the Peruvian force on shore. The Peruvian loss in the fight was placed at 150 men, and the Chilean loss at thrice that number. The force landed at Pisco will probably destroy all the towns in Yea valley, and then enter Canete Valley. The march to Lima will be resisted step by step.

Polygamy in Idaho.

BOISE CITY, December 16th.—Governor Neil delivered his message last night before a joint convention of both houses of the Legislature and a large audience of ladies and gentlemen. It is a straightforward, able document. In speaking of polygamy, the Governor said: The evil is no longer confined, but has spread into the adjoining Territories, and Idaho has not escaped its blighting presence. Many persons in this Territory are living in open, undisguised violation of the anti-polygamy law of Congress and of the laws of Idaho relating to the same offense. The law of Congress is inoperative, for the reason that these plural marriages are contracted outside the Territory, invariably in some Utah temple or Endowment House. Consequently our Courts have no jurisdiction under that Act.

Two Brothers Murdered.

PETALUMA, Dec. 17.—Wm. Mullen and brother, name unknown, were shot and killed yesterday morning by Albert and Alfred Quackenbush, at the Kellogg ranch, ten miles east of Santa Rosa. It seems there has been some trouble between the four brothers about land in disputed possession, and it is supposed the shooting resulted from this. The murderers are in custody, and further developments are awaited with great interest.

Frightful Disater at Buffalo.

BUFFALO, Dec. 17.—A serious fire, attended by a heavy loss of life, occurred in the immense five-story building occupied by Birge & Sons, wall-paper manufacturers. The building is 80 feet front by about 300 in depth, and about 150 men and boys are employed. All of the number were at work, and in less than twenty minutes after the alarm was given the building was a mass of flames. The walls crumbled and fell, and probably buried twenty to thirty employes.

California's Electoral Vote.

WASHINGTON, December 17th.—The Electoral vote of California was delivered to Vice-President Wheeler to-day by the venerable Stephen Cooper, of Colusa county, a special messenger of the Electoral College, who, despite his 84 years, came alone across the continent for that purpose, and appeared at the Capital this afternoon as hearty, hale and erect as most men born after the close of the war of 1812, in which he participated.

Restoration of Public Lands.

WASHINGTON, Dec. 17.—Representative Berry, as a result of conversations with members of the Public Lands Committee, is satisfied that he will obtain a favorable report for his bill to restore to the public domain the many thousand acres of land withdrawn for the California and Oregon Railroad Company on the uncompleted portion of its line in California.

The Trouble in Ireland.

LONDON, Dec. 19.—A Land League meeting was held at Mullinger, County Westmeath, to-day, 10,000 persons being present. The town was decorated with flags.

A mob of 2,000 persons attempted on Saturday to wreck the residence of Mr. Downing, a Justice of the Peace at Bonnicanlan, County Mayo, after he had served writs of ejectment on some tenants. The police kept the people back at the point of the bayonet. Downing escaped on a car to Ballina, where he took a train for Dublin. The police now occupy his residence.

A most profound sensation was caused in London and Dublin by the news that the Privy Council had proclaimed against land meetings. The Councilors share O'Connor's fears of a bloody Christmas.

The Crusade Against the Jews.

BERLIN, Dec. 19.—A meeting of 2,000 persons was held yesterday at which resolutions were passed in favor of the suppression of the liberty of the Jews, to return no Liberal to Parliament who will not promise to vote for such suppression, and to buy nothing from Jewish shops or firms.

Railroad Washout.

WILLIAMS, Dec. 20.—The heavy storm of yesterday washed away 300 yards of railroad track a mile north of Arbuckle. Passenger and freight trains from Willows were held here until 2 this afternoon, when the break was fixed to allow a hand-car to pass. A special from Sacramento met the down train at the washout, and the passengers and express were transferred.

The Electric Light on Broadway.

NEW YORK, Dec. 20.—The electric light between Fourteenth and Twenty-eighth streets, on Broadway, one lamp per block, was a great success, making everything clear and bright. The experiment will be continued two or three weeks, the illuminations being from 5:30 P.M. till daylight.

The Agitation in Ireland.

LONDON, Dec. 20.—David R. Plunket, member of the House of Commons for Dublin University, speaking at a Conservative meeting at Chesterfield yesterday, said the Government was bound to fail. While deploring the outrages in Ireland, he asked his hearers to take into account the influences which are brought to bear on his countrymen by agitators seeking to serve their own purposes.

DUBLIN, Dec. 20.—The country is drifting nearer to the rocks, and nothing is done to save her. The wave of agitation sweeps with greater force through the provinces, and although it is met with a check in Ulster, nobody can tell how long the barriers which the loyal feeling in Ulster imposes will be able to withstand the repeated shocks at Parnell's hands. Coercion has triumphed, while the Government shrinks from any attempt to counteract it.

New Republic Established.

LONDON, Dec. 20.—A telegram to the Colonial Office from Pietermaritzburg, dated December 19th, reports that 5,000 Boers have taken possession of Heidelberg and established a Republic, with Paul Kruger as President and Joubert commandant.

The Trouble in Ireland.

LONDON, December 21st.—Lord Randolph Churchill, the leader of the Fourth-party movement, who is striking out boldly since Lord Salisbury took him up, made a speech yesterday at Preston, denouncing the imbecility of the Government in dealing with the Irish difficulty. He declared that Mr. Gladstone's Government on assuming power had been advised by all the authorities in Ireland to adopt, from the outset, a policy of coercion, and that by neglecting this advice the Government had caused and was responsible for the present state of chaos in the island.

The International Billiard Match.

PARIS, December 21.—The Vignaux-Slosson billiard match was resumed to-night. Vignaux placed the balls where they were at the close of the play yesterday, and made a run of 59. Slosson, catching up the points lost yesterday, reached 1,200, leaving Vignaux with 1,050. The match then adjourned until to-morrow night.

Another Plot Against the Czar.

ST. PETERSBURG, December 21.—Before the Czar left Livadia the police found a newly-dug tunnel running from a barn near the railway. The owner of the barn, who had a son exiled in Siberia, shot himself on the discovery.

Charles Westfield, on a wager at New York that he could put a bullet through the hat of another man, fatally wounded the latter.

Woodland Health and Temperance Club.

Last Saturday evening the Woodland Health and Temperance Club held its last public meeting for this year in the Advent Church. A couple of hours before the time appointed for the meeting the heavens became overcast with dense clouds which discharged at intervals light showers of rain, which caused those who were directly interested in the proposed meeting to feel apprehensive that the attendance would be so small that it would be advisable to postpone the exercises until some future time; but when the hour for commencing had arrived there was a fair audience present, which encouraged the managers of the meeting to carry out the programme prepared, and which was completed with the exception of the best singing, some of the members of the choir being absent. The Leader of the Club called the meeting to order, and gave out the song "For God and the Right," from "Temperance and Gospel Songs," which was sung by the congregation, and was followed by a fervent prayer by Elder J. L. Wood. As the Secretary was absent the minutes of the last meeting, held Aug. 31st, 1830, were read by the Leader. Next followed that popular and stirring temperance piece entitled "Dare to be a Daniel," which was sung with spirit by the congregation. Elder Wood delivered a short but impressive temperance discourse, taking as the basis of his remarks Prov. 23:2: "Put a knife to thy throat, if thou be a man given to appetite." He spoke of the power that perverted appetite has over a great portion of mankind, not on'y for liquor and tobacco but also for other substances which have an injurious and often fatal effect upon those who indulge in them. He also showed how filthy and disgusting persons become who indulge in such poisons, and also stated that tea was prepared in such a way as to contain very often filthy and poisonous substances. Many good points were made showing the value of temperance in all wholesome foods and beverages, and the destructive consequences of intemperane, but we have neither time nor space to mention them. After the discourse a beautiful piece entitled "Heaven's Pearls," from the temperance song book, was sung as a duet in sweet and harmonious tones, by Misses Hattie Saunders and Jessie Grayson, making a pleasing feature of the evening's entertainment. Next followed recitations by Jimmie Martin and Ivy Scott, who spoke temperance pieces with credit to themselves. The little temperance song, "Little Drops," the last verse of which is,

"Little drops of brandy,
Little drops of rye,
Make the mighty toper
And the rummy eye,"

was sung by Harry Overshiner, containing sober facts clothed in humorous language. The Constitution and By-laws of the club were then read and explained by Mr. Saunders, at the conclusion of which the Leader called upon persons in the audience for general remarks, to which M. C. Winchester, of Knights Landing, a champion worker in the temperance cause, responded by showing the alarming extent to which the evils of the liquor traffic had progressed in the State, but assured us that the temperance people of California were making progress in their efforts to eradicate those evils, and that in the near future California would fall in to line with Iowa, Kansas and other States that had recently expressed at the ballot-box in favor of prohibition. Rev. E. M. Stuart also responded, and in his remarks stated that some newspapers in this State had become alarmed at the progress of the temperance cause and feared that she would become as bad as Maine with her severe prohibitory laws, which the speaker hoped would soon be the case, and mentioned that he resided eighteen years in a large town in that State, during which time he had never seen a saloon nor a place where liquor was advertised for sale, and only two or three drunken men, a condition of affairs which would not hurt Woodland in the least. At the conclusion of the interesting remarks by these gentlemen the following persons were then appointed to pass through the audience to solicit signers to the several pledges: D. B. Guile, Mrs. A. Mason and Mrs. Scott. Four signed the teetotal pledge and two the anti-whiskey. One dollar was received for certificates, and 350 pages of temperance tracts were distributed among the audience.

There are now 112 persons enrolled as members of the club, 64 of whom are full members, having signed the teetotal pledge. During this year four have broken their pledges. The Leader stated that the annual dues were only ten cents, and he hoped those who had forgotten to do so would pay the same to the Secretary. The next meeting was announced to take place on the 15th of next January. The closing piece, "Work," was sung and the audience dismissed with a benediction by Elder Wood. The meeting was pronounced a success by many who were present, the only regrets expressed being in regard to the inclemency of the weather, which prevented a full attendence.

J. G. OVERSHINER, Sec'y pro tem.

A GENTLEMAN in the habit of occasionally using intoxicating drinks took up an able temperance address and sat down in his family to peruse it. He read it through without saying a word; when he had got through he exclaimed, "This man is a fool!" He then read it through again, and when he had finished it a second time he exclaimed, "This man is a fool or I am!" A third time he read it with still greater care, and as he finished the last sentence exclaimed, "I was a fool!" and never touched a drop of ardent spirits afterward.

A POOR, ragged lad came to a ragged school in Ireland—a miserable little Arab of the streets, with scarcely a trace of the child in his face. One day, however, he appeared radiant in a new suit of clothes. "How is this, Mike?" asked the teacher. "Oh, sir," he said, "sure daddy's a teetotaler; and I never stopped till I brought him to the meetings, and he signed the pledge; and look at me now, sir."

Town and County Matters

The Finn-Landis Case.

Saturday at 10 o'clock A.M. was the time set for hearing evidence in the case of the Peopl vs. Julia A. Finn, charged by Geo. E. Landis with the crime of assault with intent to commit murder on his precious person. Owing to the failure of the morning train to arrive on time, it was not until nearly an hour later than the specified time that Mrs. Finn, with her baby in her arms, and accompanied by her counsel, D. E. Alexander and D. J. Wylie, appeared in Court. The Town Hall, where the trial was held, was crowded almost to suffocation by a motley crowd of spectators, all intent on seeing the defendant and prosecuting witness and hearing every word which might proceed from the mouths of the witnesses. Indeed, it was with difficulty the Court officers were enabled to keep the crowd outside the railing used to keep the Court and witnesses from intrusion. Several ladies, residents of Willow Slough District, where the shooting was alleged to have taken place, were present, and were given seats inside the bar. Owing to the persuasive though silent eloquence of a subpœna which officer Powers had served upon Mr. Landis, the prosecuting witness, a day or two before, that gentleman made his appearance to testify in the case.

Before the witnesses were sworn Mr. Alexander moved that the case be dismissed on the ground that the information had not been taken and verified by law. The motion was overruled, and Geo. E. Landis, Addie Wright, Lillie Wright, Charles and Alice Hays, Smith Scott and O. Hiddleson were sworn as witnesses for the prosecution. On motion of counsel for defendant, the rule excluding the witnesses from the Court room during the examination was enforced. District Attorney Garoutte, who conducted the prosecution, then called Mr. Landis to the stand. Mr. Landis is a young man of not very striking appearance, and would not be taken at first sight for a heart smasher, by any means. In complexion he is what might be denominated a pineapple blonde, and his voice is an indifferent compromise between a second tenor and a bronchitis burdened baritone. His testimony was to the effect that on or about the 24th day of November last, during the noon recess of the Willow Slough School, of which he was teacher at the time, the defendant, Mrs. Julia A. Finn, with her sister drove up to the school house in a one-horse buggy, and Mrs. Finn alighted and came into the school-house, where he was sitting by the stove, engaged in reading. That Mrs. Finn asked him if he was glad to see her, to which he replied "Not particularly." She then engaged in general conversation, asked a number of questions about the school, and, pointing out several of the scholars on the school ground, inquired their names. This conversation continued for between a quarter and a half hour, when the defendant and the prosecuting witness left the school house and walked together out to the buggy, in which the sister of the defendant was still sitting. Here they stood and talked for some time—until it was time to take up school. He informed her that such was the case, and that she must either come into the school house or drive away from the grounds, as he must attend to his duties as teacher. She finally consented that he should go in, which he proceeded to do, but when he had reached about half the distance between the buggy and the school house, about 20 feet, he heard two reports of a pistol in quick succession, and, turning around to see what was up, saw defendant fire another shot, apparently in his direction, from a pistol which she held in her hand. As soon as the third shot was fired he sprang forward and caught defendant's hands, just as she was in the act of cocking the weapon for another shot. In the struggle for the possession of the pistol she fell down and he wrenched the pistol from her, but according to the recollection of the witness it was not again discharged. [Witness here identified the pistol]. He then assisted the woman into the buggy, and she and her sister drove off in the direction of Sacramento City. Witness then returned to the school house, and, after stating to the children that the woman was crazy, and he had heard she was at one time the inmate of an insane asylum, he devoted the remainder of the afternoon in teaching the Willow Slough young idea how to shoot.

On cross-examination Mr. Alexander sought to bring out the details of the former relations existing between the prosecuting witness and the defendant, and for some minutes quite a lively sparring was kept up between himself and Mr. Garoutte, as to the propriety of raking up these old reminiscences at this time. During the sparring, however, Mr. Landis found time to get in a denial that he had ever directly or indirectly acknowledged Mrs. Finn as his wife. Upon this counsel for defendant took from his pocket a package of letters and, selecting one therefrom, handed it over to witness with the request that he state to the Court whether he was not the author of it. To this the District Attorney, of course, objected, and after another wrangle of ten minutes the witness was excused from answering the question, on the ground that it was irrelevant to the case and was not cross-examination, a fact that Mr. Alexander was well aware of at the time he gave him the letter. The prosecuting witness was then told to stand aside, and little Lillie Wright, a scholar in Willow Slough School, was put on the stand. Miss Lillie gave her testimony in a clear, straightforward manner for one so young, the substance of which was that she was present at school on the day of the shooting, saw the ladies drive up in a buggy, saw defendant when she went into the school house and after she and Landis came out, heard three or four shots fired, but did not see any one fire a pistol, as she was in the school house at the time. The other scholars who were examined testified in about the same tenor as this witness, except that one or two saw the pistol in the defendant's hand and also were witnesses of the struggle between defendant and Mr. Landis for possession of the same. The defense did not call any witnesses, and after brief arguments by the attorneys, the Judge held Mrs. Julia A. Finn for trial before the Superior Court of Yolo County, on the charge specified in the Information, fixing her bonds at $500, which her attorneys agreed to file and have approved by one of the Superior Judges of Sacramento county, becoming personally responsible for the actions of the prisoner until such bonds are duly filed and approved. During the examination of the prosecuting witness, Mrs. Finn kept her eyes on his face with a steady, reproachful gaze, and more than once Mr. Landis glanced furtively at her, as if conscious that her mournful, accusing eyes were upon him. When the decision of the Justice had been announced, and the defendant, with her little, illegitimate baby in her arms, arose to depart, more than one sigh of pity was heard among that rough, sensation-seeking crowd, and even the Justice's eyes were suspiciously damp. Among all who were present, only Landis, the prosecuting witness, and the alleged father of the unfortunate defendant's child, seemed to be unmoved, and more than one regret was audibly expressed that one or more of the shots did not take effect in his precious carcass.

Young Men's Debating Club.

According to previous announcement, the Young Men's Debating Club held an open session Thursday night at the Christian Chapel. Owing to the bad weather, but few were present. The exercises were as follows: After the roll call and reading of the minutes, the outgoing President, Mr. Clay Edwards, delivered a very interesting and instructive valedictory. The President-elect, G. W. Grayson, then took the stand and delivered a practical inaugural address.

Mr. J. W. Lawson followed with a declamation entitled "Example for Ireland." It was delivered with a degree of earnestness and pathos seldom excelled by one of his age.

The debate was next in order. According to previous agreement, a committee of three was selected from the audience to decide the merits of the argument. The affirmative selected Mr. W. S. Huston; the negative, Prof. A. M. Elston. Mr. W. M. Coward was chosen as the third. The question for discussion was, "Affirmed that the Republican form of government is the preferable form for a civilized people." Affirmed by Byron Ball and T. J. Grant, denied by R. W. Turner and A. E. Hildleson. The decision was rendered in favor of the negative.

An essay by Mr. W. T. Packwood, entitled "Personal Embarrassment," concluded the exercises.

The Concert.

Professor Walle seems doomed to bad luck in regard to his concerts. The first musical soiree presented by the Professor was, owing to adverse circumstances, but slimly attended, although the programme was well arranged, and more than satisfactorily carried out. Everything indicated that the second of the series, to come off at Central Hall last evening, would prove a grand success, as elaborate preparations had been made for presenting such a musical treat as was never before enjoyed by a Woodland audience. The programme was arranged with a view only to suit the tastes of those who appreciate first class music, and the performers were selected from among our very best local singers. But the elements were against them, as the rain began to pour down steadily about 6 o'clock P.M., the consequence being that the hall was not more than one-third full when the hour for the concert to begin arrived. Notwithstanding the influence of the rain without, and a slim audience within, however, the programme was carried out to the letter, and in a manner very creditable to the performers. A movement is on foot to induce Professor Walle to give a repetition of his concert at an early date. We are satisfied that should he conclude to do so he will be greeted by a crowded house, no adverse circumstances intervening.

Superior Court—Bush, Judge.

Thursday, Dec. 16th, 1880.

Green vs. Martin—On motion, attachment dismissed, plaintiff consenting, and without liability on bond.

James Moore vs. Clear Lake Water Works—Case set for trial Monday, Dec. 27th, at 2 o'clock P.M.

Adamson vs. Montgomery—This case came on for trial on appeal from Justice's Court. J. W. Armstrong appeared as counsel for plaintiff and J. C. Ball for defendant. Witnesses were examined and the case argued by respective counsel, and submitted to the Court, who rendered judgment for the plaintiff in the sum of $210 and costs, with 30 days' stay of execution.

Geo. B. Lewis vs. Agnes Bemmerly—Ordered that judgment be entered in favor of plaintiff for $372.83, together with costs of suit.

Christmas Entertainment.

The usual Christmas exercises will be held in the M. E. Church on Friday evening. Recitations and songs will be given by the children. There will be some novel features in the decorations. In the place of the tree will be introduced Kris Kringle's Ladder. It is expected that his Excellency will be present to preside over the distribution, and see that each good little boy is remembered. The patrons of the church and school are requested to be on hand on Friday as early as convenient with their gifts, so that the Committee may not be hurried. Public generally invited. Any who wish may use the tree.

Quinine and Arsenic

Form the basis of many of the Ague remedies in the market, and are the last resort of Physicians and people who know no better medicine to employ, for this distressing complaint. The effects of either of these drugs are destructive to the system, producing headache, intestinal disorders, vertigo, dizziness, ringing in the ears, and depression of the constitutional health. AYER'S AGUE CURE is a vegetable discovery, containing neither quinine, arsenic, nor any deleterious ingredient, and is an infallible and rapid cure for every form of Fever and Ague. Its effects are permanent and certain, and no injury can result from its use. Besides being a positive cure for Fever and Ague in all its forms, it is also a superior remedy for Liver Complaints. It is an excellent tonic and preventive, as well as cure, of all complaints peculiar to malarious, marshy and miasmatic districts. By direct action on the Liver and biliary apparatus, it stimulates the system to a vigorous, healthy condition. For Sale by all Dealers

At an adjourned meeting of the Board of Supervisors, last week, Supervisor Newton was appointed to look into the cost of manufacturing gas for use at the Court House, and also to confer with John Q. Brown, the proprietor of the Woodland gas works, and ascertain the lowest average price per month at which he would agree to furnish light for the county offices for the ensuing year. The order discontinuing the use of gas immediately was partially rescinded and the county officers will be allowed to use the burners until the first of January, when, if no satisfactory arrangement can be made with Mr. Brown, he will be required to remove the meter from the Court House. It is now rumored that a new company will be formed and rival gas works will be put into operation here in the near future. Such action would meet with hearty approval by a majority of consumers.

Through the agency of W. M. Coward, Real Estate and Insurance agent, the Capital Hotel on Friday last changed ownership, M. H. Torrence being the purchaser. The price paid was $10,000, cash in hand, and is considered a bargain for Mr. Torrence, at that figure. We understand the new proprietor proposes to thoroughly renovate the house, make a number of much needed improvements, and take charge of the business at the beginning of the new year.

Robert Harlan, who last season was engaged in farming near Rio Vista, Solano county, is on a visit to friends at this place During the floods of last Winter Mr. Harlan had a close call for the loss of his crop, but luckily he came out uninjured and reaped a bountiful return for his labor. He will try the river country again this season.

No clue has yet been obtained to the whereabouts of Joseph Bass, the defaulting ex-Manager of the Puget Sound Lumber Co. business at Willows, Colusa county.

The stage drivers report the road between this place and Capay as in a very muddy condition, some places being covered with water and abounding in holes of uncertain depth.

Cache Creek, which experienced a big boom after the recent storm, has subsided somewhat, and is now within its banks. As far as we have heard the bridges all stood the test without disaster.

Have you seen the new Garden City Gang Plow at C. & W. E. Shellenberger's Agricultural House? Take one out and try it. *

We call special attention to the advertising columns of the DEMOCRAT at this time. Read them over carefully, and we have no doubt useful information as to the style and prices of goods will be gained by the perusal.

Remember that State and county taxes become delinquent this year on the 27th of Dec., instead of the first Monday in January as formerly; and if not paid at the former date, 5 per cent must be added to the amount.

Opposition Water Works have already been erected and are now in full operation in our city, and now there is talk of opposition gas works, and unless there is improvement in the gas furnished by the present company, and in the "register" also, the talk may amount to something. A word to the wise is sufficient.

Go and see the Steel Beam Center Draft Plow, under Washington Hall. *

George E. Landis was again arrested last Friday on a charge of bigamy, the complaint being sworn to by Miss Alice H. Townsend, a sister of Julia A. Finn, the lady who claims to be Landis' wife. The delinquent husband furnished bonds in the sum of $1,000 for his appearance in the Superior Court of Sacramento on Tuesday at 10 o'clock A.M.

We dropped into the "White House" the other day, and there found such a display of new goods as almost to take away our breath. This popular establishment, under the management of Messrs. Stange & Hink, needs no special notice from us except to advise all who think of purchasing goods in their line to call and examine the stock now to be seen at the "White House."

Fur trimmings at Mrs. H. Karewski's. *

THE DEMOCRAT wishes to suggest that whenever there is a fine day ladies especially should take advantage of it to make their holiday purchases. There is no fooling about the way the pluvial fluid is dispensed this winter, and unless this suggestion is heeded some of our numerous lady friends may be caught in the rain. The stores are heavily stocked, and now is the time to make holiday purchases.

Owing to the failure of Judge J. M. Gregory to be present in the Superior Court yesterday, the sentence of A. W. Taylor, for the murder of Robert Benham, was again deferred until the 7th of January, 1881, at which time Judge Gregory will be present and pass sentence on Taylor. The penalty prescribed by the jury, it will be remembered, was imprisonment for life, hence the Judge's duty in the matter is simply carrying out the formalities prescribed by law.

Oysters served up in every style at Glendinning's. *

T. S. Spaulding, who has for four years been a faithful clerk in the Excelsior grocery store, has resigned his place, and about the beginning of the New Year will establish a similar business on his own account at Winters, in this county. Mr. Spaulding stands high in the estimation of all in this community, and he will carry with him the best wishes of all in his proposed new departure. Success to you, Thaddeus, and long and well may you prosper.

Through the kindness of Captain D. C Rumsey, of Upper Capay Valley, we have the following report of rainfall this winter at his place: July 16th, sprinkle; Nov. 16th, .05 inches; Dec. 2nd, 2.15; 3d, 1.27; 4th, .06; 5th .14; 6th, .70; 9th, .35; 13th, .40; 14th, .84; 17th .55; 19th, 1.50; 20th, 3.54 inches, making a total for the season of 10.95 inches, as against 10.18 inches up to the same date in 1879. For 1880 the fall there was 4.10 inches more than at this place up to the 20th instant.

Saturday was a pretty lively day for the Tax Collector. The office was thronged all day by those who wished to pay, or ascertain the amount charged against them. Up to and including yesterday's receipts the amount collected to date aggregates $60,159,17, which includes the drainage, special school and delinquent poll and road taxes, collected to date. The total amount charged to the Collector is $203,354,49. Hence the amount yet to be collected is $143,205,32. As only 926 receipts out of about 2500 have as yet been issued, it will be seen that the Collector will have his hands full to get through with the business of the next ten days.

Only the *best* and *purest* brands of Tobacco and Cigars sold at the Variety Store of Geo. C. St. Louis. *

L. W. Scott, of this city, has one of the finest dogs in the State. He possesses unusual intelligence, and is the pride of his owner and the delight of his owner's friends. "Sport," the dog, is as full of tricks as a schoolboy. Among the numerous smart things "Sport" does is to catch a half dollar thrown in the air and return the same to his master. Not having the usual silver coin one day not long ago, a twenty dollar gold piece was used, which "Sport" caught with his usual expertness several times. At last, as he snapped at the coin, he stumbled and swallowed the gold piece. The owner has never recovered it. Perhaps it was bogus, and poor "Sport" could not pass it.

Have you seen and tried Casler's "Our Darling" Cigars—"Too nice for anything" and only 5 cents.

It is natural for tradesmen to boast of their display of goods, and we see no harm in it; for they are usually open to inspection, and every one is at liberty to judge for himself. Of course it would be out of place for us to discriminate between our advertisers, but we can not refrain from calling attention to the attractive display of jewelry, stationery, pictures, etc., now on exhibition in the windows of that popular "old-timer," G. W. Greene. His assortment of jewelry this year far surpasses in real worth, in novelty of design and workmanship, that of any previous year. A description of all there is to be seen at Mr. Greene's store would consume too much space, but a visit and inspection of his goods will convince all that the above notice is not overdrawn. Then by all means call at Greene's Pioneer Jewelry Store in College Block, and there see what is to be seen.

Lameness is the precursor of Rheumatism. Escape it by heating Trask's Magnetic Ointment and rubbing in thoroughly.

J. B. Elston the popular druggist and stationer has placed a large and elegant sign in front of his place of business, which serves two purposes: To let people know who lives there and what his business is, as well as to serve as a screen to keep the blazing rays of old Sol from the goods in the show windows.

In the Superior Court Friday, A. W. Taylor, previously convicted of murder in the first degree, appeared for sentence, but, owing to the absence of Judge J. M. Gregory, of Solano county, who officiated for Judge Bush during Taylor's trial, sentence was deferred until Monday, Dec. 20th, defendant being allowed until that time to file a bill of exceptions.

Syrup of Tar and Wild Cherry is the best remedy for Coughs and Colds; for sale at Whittemore's Drug Store. *

We understand that the Pioneer Store building on the northwest corner of Main and First streets has changed owners, the Freeman brothers having sold the same to A. Nickelsburg & Bro., proprietors of the store in the first story. This is one of the best buildings in the town, and being centrally located, as it is, is very valuable property. We did not learn what the consideration was.

Geo. E. Landis, the prosecuting witness in the case of the People vs. Julia A. Finn, requests us to state that the reason he was not present in Court on the 13th instant to testify in the case is that he had no notice that the trial would take place on that date until the afternoon of the same day, the papers having previously stated that it would occur on the 15th of the month.

R. G. Tadlock, of Cottonwood, paid the DEMOCRAT office a call lately. Mr. Tadlock is one of those farmers of Yolo, who, by strict attention to his business, has succeeded in establishing for himself a comfortable home, and a reasonable competence to back it. He thinks the present outlook very favorable for abundant crops this season, and reports all the farmers in his neighborhood as busy preparing the ground for the reception of seed.

Christmas comes but once a year—for the largest assortment of the purest candies, call at Glendinning's. *

The attention of the Board of Trustees has been called to the fact that the east end of Main street, and all the property in that vicinity, is entirely unprotected against fire, and yet they take no action in the premises. Iron pipes are laid in Main street to the corner of Sixth by the new company, to which a fire hydrant could easily be attached, and the company will guarantee a constant supply of water without cost to the town. Under these circumstances the residents and taxpayers have reason to complain, and do complain, that their interests as such citizens and taxpayers are not looked after, as they should be by the proper authorities.

We call attention to the notice of Hatherton & Pelton, architects. These gentlemen are recognized as among the leading architects of the State. As a sample of their work reference is hereby made to the elegant new residence of Dr. Geo. H. Jackson, on the corner of Railroad street and Oak Avenue, now nearly completed. This of itself is a sufficient advertisement of the skill and taste of this firm in the architectural line. Mr. Pelton will be in Woodland quite frequently hereafter, and may be found at the drug store of F. W. Whittemore, where he makes his headquarters while in town. We advise all who contemplate building to make his acquaintance.

Comparatively little growling at the Assessor is heard from tax-payers, although occasional errors against parties assessed appear on the roll. All should remember that it is almost impossible for the Assessor to perform the work of enroling the taxable property of a county as large as Yolo without making some mistakes. In cases where the tax-payer has been erroneously assessed, a proper showing before the Board of Supervisors is the remedy. The Tax-Collector is powerless to correct any blunders which may appear on the roll. Hence, any discussion of the same in the Collectors's office is only so much waste of that officer's time and the aggrived parties' breath. The Supervisors only have jurisdiction in such cases.

A part of the machinery for the new planing mill, foundry and boiler works, which under the management of C. C. Kane & Co will soon be in operation at this place, has arrived here and men are busy getting it ready for use. The building, situated on Main Street next to the railroad track, is to be immediately enlarged, and put in readiness for use for the above named purposes. In connection with the foundry, planing mill and machine shop, a general blacksmithing business is to be established, which will be under the direction of competent workmen in that line. An extended account of what the enterprising firm of Kane & Co. intend to do will appear in the DEMOCRAT soon.

A Fine Thing for the Teeth.

Fragrant SOZODONT is a composition of the purest and choicest ingredients of the Oriental vegetable kingdom. Every ingredient is well known to have a beneficial effect on the teeth and gums. Its embalming or antiseptic property and aromatic fragrance make it a toilet luxury. SOZODONT removes all disagreeable odors from the breath, caused by catarrh, bad teeth, &c. It is entirely free from the injurious and acrid properties of tooth pastes and powders which destroy the enamel One bottle lasts six months.

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an *Incurable Lung Disease or Consumption.* BROWN'S BRONCHIAL TROCHES are certain to give relief in Asthma, Bronchitis, Coughs, Catarrh, Consumptive and Throat Diseases. For thirty years the Troches have been recommended by physicians, and always give perfect satisfaction. They are not new or untried, but having been tested by wide and constant use for nearly an entire generation, they have attained well merited rank among the few staple remedies of the age. Public Speakers and Singers use them to clear and strengthen the voice. Sold at 25 cts a box everywhere. oc12dTTS&w

Disease and Death.

Disease and Death, when they reach our own households, are too serious for jesting, we use our best endeavors to drive off the dread messengers, and are only happy when we feel that they are at a distance. At the first approach of that fell distroyer, Consumption, in the shape of a cough or slight cold as well as more severe Bronchial or Catarrhal Complaints, we should at once use Ellert's Extract of Tar and Cherry. It has no superior in such cases. Every bottle warranted to give satisfaction. Sold by all Druggists.

There is no earthly boon more precious than good health, and it behooves its possessor to endeavor to retain it. If you are assailed with such provoking ills as sick headaches, torpid liver, sour stomach and a general feeling of weariness and disgust, don't go and commit suicide but take Ellert's Daylight Liver Pills and be cured.

Mothers will find Dr. Winchell's Teething Syrup just the medicine to have in the house for the children, it will cure colds, coughs, sore throat and regulate the bowels; try it.

Rheumatism, neuralgia, sprains and bruises will be relieved by Uncle Sam's Nerve and Bone Liniment, sold by all Druggist.

Distempers, Coughs, Colds, Fevers and most of the diseases which Horses, Cattle, Sheep, Hogs and Poultry are subject to are readily overcome and cured by using Uncle Sam's Condition Powder according to plain directions. Sold by all Druggists.

No stock of drugs is complete which does not include Ellert's Extract of Tar and Wild Cherry. It is the best remedy known for coughs, colds and all throat and lung diseases.

A Great Holiday Offer.

We desire to call the attention of our readers to the Grand Holiday Offer of the Mendelssohn Piano Company, whose advertisement appears elsewhere. This Company offers an $850 Square Grand Piano, 3 *stringed*, 7⅓ *octaves*, in a handsome rosewood case, for only $245, also many other styles of Pianos and Organs at great bargains for the Holidays, including sheet-music at one-third price.

These Pianos, including Grand, Square and Upright, made one of the finest displays at the Centennial Exhibition, and were *unanimously* recommended *for the Diploma of Honor and Medal of Merit.*

The MENDELSSOHN PIANO Co. are the first to do a general business with the *purchaser direct*, saving him *more than one-half* the price charged by other *first-class* makers. This saving is made by doing away with the Agency System, and giving the people the Pianos at Wholesale or Agency Prices.

We would recommend any of our readers who have any idea of ever buying a piano or organ, to send for their illustrated and Descriptive Catalogues, which will be mailed free to all.

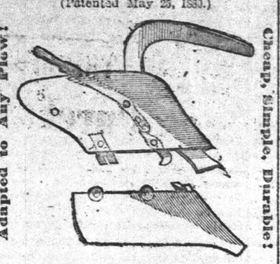
PATREY'S

PLOW-SHARE FASTENER

(Patented May 25, 1880.)



By means of this Fastener, PLOW-SHARES are EASILY and QUICKLY REMOVED from the mold board. There are no BOLTS or NUTS to rust and wear loose. No tedious and vexatious delays in hunting after nuts and wrenches. There is simply

A LEVER ATTACHMENT

Which is thrown back, releasing the share when another can then be put in its place, the whole operation occupying but a few seconds.

Read the following Testimonials from those who have used the Fastener:

DUNNIGAN, CAL., Aug. 1, 1880.

J. P. Patrey, Esq.—Dear Sir—I have been using your patent for fastening plow shares for some time. It saves time, labor and money, and fastens the shares as firmly as if bolted.

Yours truly, M. T. EMMERT.

SPRING VALLEY, Colusa Co., March 18, 1880.

Mr. J. P. Patrey—Dear Sir—I have used your Plow-share Fastener on a Eureka Plow, breaking up new ground in heavy timber. I frequently had to hitch the team to the rear of the plow in order to release it from the stumps and rocks, and have always found the Fastener all right. Hereafter I shall use it on all my plows. J. W. JOHNS.

DUNNIGAN, Yolo Co., Cal., Jan. 26, 1880.

Mr. J. P. Patrey—Dear Sir—Your "Plow-Share Fastener" recommends itself, as no bolts are used. I can change my plow-points in a few seconds. J. A. BYERS.

DUNNIGAN, Yolo Co., Cal., July 31, 1880.

J. P. Patrey, Esq.—Dear Sir—In answer to yours of a few days since, inquiring of the Plow-Share Fastener, I wish to state that I have used the four sent me with perfect success, and consider them a very great saving in time, and would most heartily recommend them to all farmers. I will order one for each plow before the plow season begins.

Most respectfully, B. B. GLASCOCK.

Summons.

IN THE JUSTICE'S COURT, CACHE Creek Township, in the County of Yolo, State of California.

R. B. JOHNSON, Plaintiff, vs. CARL WEHRMAN, Defendant.

The People of the State of California send greeting to CARL WEHRMAN, Defendant:

You are hereby required to appear in an action brought against you by the above named Plaintiff in the Justice's Court of Cache Creek Township, County of Yolo, State of California, and to answer before the Justice at his office in said Township, the complaint filed therein, within five days (exclusive of the day of service) after the service on you of this summons—if served within the Township in which this action is brought; or if served out of said Township, but in said County, within ten days; otherwise within twenty days.

The said action is brought to recover the sum of $68.65, lawful money, alleged to be due Plaintiff by you for labor performed and materials furnished within the last two years next preceding the commencement of this action; and you are hereby notified that if you fail to so appear and answer said complaint, as above required, said Plaintiff will take judgment against you for $68.65 lawful money, together with costs of suit.

Make legal service and due return hereof.

Given under my hand this 24 day of December, 1880. A. C. RUGGLES,

Justice of the Peace of said Township.

Summons.

IN THE SUPERIOR COURT OF THE State of California, in and for the County of Yolo.

ANN E. BRADSHAW, Plaintiff, vs. T. A. BRADSHAW, Defendant.

The People of the State of California send greeting to T. A. BRADSHAW, Defendant:

You are hereby required to appear in an action brought against you by the above named Plaintiff in the Superior Court of the State of California, in and for the County of Yolo, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons—if served within this County; within thirty days if served elsewhere.

The said action is brought to dissolve the bonds of matrimony existing between Plaintiff and Defendant, on account of wilful desertion, etc., and for general relief and custody of minor children, all of which will more fully appear by reference to complaint on file herein.

And you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said Plaintiff will apply to the Court for the relief demanded in the complaint.

Given under my hand and the seal of said Superior Court, this 8th day of November, in the year of our Lord one thousand eight hundred and eighty.
